by TecnoSS

NICE France
11th-12th April 2025

**COURSE ON
FRESH EXTRACTION
SOCKET TREATMENT
AND WISDOM TEETH
EXTRACTIONS
MANAGEMENT**

PROF. ANTONIO
BARONE

PROF. JASON
MOTTA JONES

**SOCKET
PRESERVATION
& WISDOM TEETH**

THE CLINICAL CHALLENGE

Every tooth extraction is unique.

We can deal with different clinical procedures that can allow us to perform an immediate implant, a delayed implant with GBR or a Ridge preservation procedure. For Wisdom tooth extraction the scenario is different: implants are not required but complications may rise.

COURSE OBJECTIVES

On Fresh extraction sockets

- how to classify an extraction socket
- how to deal with a fresh extraction socket
- what type of Dual-phase collagenic biomaterials should be used according to different clinical scenarios
- what to expect on the short and long-term period

On Wisdom teeth extraction

- how to perform correct diagnosis for Wisdom teeth surgery
- how to analyze differences between rotatory and piezoelectric protocols
- how to prevent and manage most common complications

CLINICAL CONTENTS

On Fresh extraction sockets

- classification of extraction socket
- decision making criteria that have to be applied to choose between immediate implants or Ridge preservation
- how to perform an immediate implants
- how to perform a Ridge preservation
- what biomaterial use to obtain the best outcomes with immediate implants and with Ridge preservation

On Wisdom teeth extraction

- how to manage and perform Wisdom teeth surgery from flap design to tooth sectioning lines and suturing

CHOICE OF MATERIALS

Dual-phase collagenic biomaterials have the advantage to be gradually resorbable giving more space for newly formed bone.

In addition, biomaterials with a thermo-sensitive gel can give an adjunctive advantage for the stabilization of the graft.

THE HANDS-ON EXPERIENCE

The hands-on experience will take you through tooth extraction, Socket preservation, and Wisdom teeth surgery.

THE SPEAKERS

PROF. ANTONIO BARONE

LEADING EXPERT ON SOCKET PRESERVATION

- Professor at School of Dental Medicine, University of Pisa, Italy
- Former Professor and Chairman of Oral Surgery and Implantology, University of Geneva, Switzerland
- President of European Federation of Oral Surgery Societies (EFOSS)
- Former President of the Italian Society of Oral Surgery and Implantology (SICOI)

PROF. JASON MOTTA JONES

LEADING EXPERT ON WISDOM TEETH EXTRACTIONS MANAGEMENT

- Head of Oral surgery unit Humanitas Dental Center Humanitas Research Hospital
- Adjunct Professor Humanitas Dental Center Humanitas Research Hospital
- Former Head of the Oral Surgery unit at the Milan Galeazzi Institute
- Founding and Active member Italian Academy of Osseointegration
- Former President of the Italian Society of Oral Surgery and Implantology (SICOI)

THE PROGRAM

Friday 11th April 2025

- 14:00 - 14:30 Welcome and Speakers introduction
- 14:30 - 16:00 Theoretical session on Extraction Socket Management, part 1 - Prof. Barone
How to perform a Ridge Preservation Procedure according to the different clinical scenarios
- 16:00 - 16:30 Coffee break
- 16:30 - 18:00 Theoretical session on Extraction Socket Management, part 2 - Prof. Barone
When and how to perform an Immediate Implant according to the different clinical scenarios

Saturday 12th April 2025

- 09:00 - 11:00 Theoretical session on Third Molar Extractions, part 1 - Dr. Motta Jones
How to plan the surgery: from the diagnosis to the selection of the surgical protocol
- 11:00 - 11:30 Coffee break
- 11:30 - 13:00 Theoretical session on Third Molar Extractions, part 2 - Dr. Motta Jones
How to extract the tooth in a minimally invasive way and how to manage possible complications
- 13:00 - 14:00 Lunch Break
- 14:00 - 17:00 Hands-on sessions in two parts
Prof. Barone on post-extractive socket
Prof. Motta Jones on Third molar extractions

GENERAL INFORMATION

Date

Friday 11th April 2025, 14:00 - 18:00

Saturday 12th April 2025, 09:00 - 17:00

Venue

Hotel Le Saint Paul

Boulevard Frank Pilatte 29 | Nice | FRANCE

SECRETARIAT

Tecross Dental s.r.l. | Phone +39 011 2257391
